REMARKS

The figures of births and deaths of India as shown in this statement for week ending the 4th January, 1958 relate to 128 towns with an estimated population of 19,063 thousands. Information about Andhra Pradesh, Assam, Bombay, Kerala, Madhya Pradesh, and West Bengal could not be included. The total number of towns is 319 and their population is 46,891. Thus 40% of the total number of towns representing 41% of the total population is covered in

this statement. The number of births and deaths recorded in these towns were 11,059 and 4,651 representing birth and death rates of 30.2 and 12.7 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population. The following table gives the position by States:—
